

DGN200 Series 9/16 Channel Network DVR

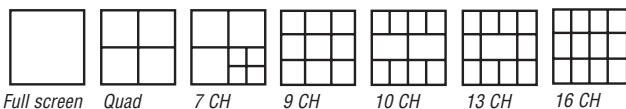

DGN209 nine channel

DGN216 sixteen channel

The DGN 200 series are cost effective network digital video recorders. Large capacity hard disk drives lets you digitally record and store hours of video without ever having to worry about degradation of images, cleaning of heads, or swapping out of tapes. Easy to operate and simple to install, making it an ideal replacement for aging time lapse VCRs. These network DVRs offer full remote view and control capabilities.
